Executive Summary

Robert Sobukwe Nursing Academy came into existence on 31 January 2021, arising from the merger of the former Edusphere Training and Development and provides courses in a range of further education and training (FET) subjects in the Health Care Sectors. We take pride in our skilled and motivated employees, experienced and loyal management team, and enviable track record.

The establishment of Robert Sobukwe Nursing Academy completed the restructuring of the South African Healthcare landscape in terms of providing affordable and quality healthcare training within the industry. It is therefore a new comprehensive academy that offers a range of programs

that will improve a learner's skill and passion for the healthcare industry. Strategically located within the Western Cape Province, Robert Sobukwe Nursing Academy straddles a vast spectrum of the urban and rural divide of the Western Cape and its surroundings. This context has then led the academy to define its NICHE area as that of Rural Development and Urban Renewal.

The Robert Sobukwe Nursing Academy offering e-learning and in class contact training. We provide skills development courses and job-relevant training to students in the Western Cape, but foremost we cater for the previously disadvantage communities of the Western Cape and surroundings. Focused on an "excellence driven" business model, we provide a high standard of education to our students through modular study material, qualified assessors, and a well-established infrastructure.

With our focus on providing affordable education, training, and skills development through consultancy and mentorship to small, micro, and medium enterprises (SMMEs), public sector and largely the previously disadvantage communities. Our mainstay is in designing and implementing new, customized, and efficient methods of training and skills development in a cost-effective manner for our students. We have a strong student base, including both first-time and returning students. Many of our first-time students come to us upon the recommendation of our current students.

As an established private learning institution in the Western Cape, we are continually expanding our operational environment, spurred on by the private sector and government's commitment to

skills development across the broader tertiary education spectrum.

Robert Sobukwe Nursing Academy operates mainly throughout the Western Cape region, with its Head Offices in Vasco, Goodwood in the Western Cape.

Robert Sobukwe Nursing Academy is a one-stop-center where youth can access a single point to seek assistance. Through an integrated under one roof approach, the center offers Education, Employment and Empowerment opportunities for young people. Support agencies that do exist are concentrated in the Western Cape and are not easily accessible to the youth of the Western Cape and surrounding areas. Therefore, Robert Sobukwe Nursing Academy is taking the much-needed services to the youth.

The Robert Sobukwe Nursing Academy will be congruent and supportive of the National Youth Development strategy.

Our project involves putting the youth in our area into programs that will educate and empower them, be it **career, education, sports, and guidance**.

Ordinarily, within our area, youth get to know about opportunities through social media and word of mouth, but they don't have the resources to access those opportunities. Our organization is a research center that looks out for those opportunities and bring them closer to the youth and make them easily accessible. Our organization will look out for all these opportunities and publish them regularly on an advert wall, social media, public spaces, mobile units, and other places to inform and educate our youth.

We will also liaise with companies and institution close to our center, to make them available and accessible to the youth of our community. The Robert Sobukwe Nursing Academy provides highly professional and personalized service to all its clients through a dedicated team. We always demonstrate high flexibility in meeting clients' specifications at competitive rates.

Our competitive edge lies in the quality of our service at all stages of our delivery systems and processes, emphasis on service excellence, and sheer flexibility to meet our clients' unique & dynamic needs.
